**STAMPED & SIGNED BY THE BIDDER**

**TECHNICAL SPECIFICATION, BILL OF QUANTITY, PRICE BID FORM:**

➤ **Technical Specification:**

<b>Domino G-Series 230i-2 or equivalent model having following specification</b>	
<b>Automatic link Detection</b>	The i- Tech ink when fitted automatically detects which ink is contained in the cartridge. No need to manually select the ink type and ink Driver files using the controller.
<b>Cartridge Presence Sensing</b>	An alarm is raised if the cartridge is removed or not fitted correctly or not present. This enable early corrective action to be taken and reduces unnecessary downtime.
<b>Cartridge level Sensing</b>	The i- Tech cartridge communicates with the controller and print head and continually updates the chip with the current ink level. Cartridge changes can be planned more effective to minimize production downtime.
<b>Cartridge Fault Diagnosis</b>	The i- Tech cartridge communicates with the controller and print head and continually updates the chip with the current state of the cartridge "health". If a resistive element goes, open, short circuit,
<b>Auto cartridge Swap</b>	Two print heads once positioned can automatically swap when one cartridge runs out. This enables the user to continue to print and avoid cartridge changes during a production copy.
